PROFESSIONAL SUMMARY

Accomplished Software Development Engineer with 6+ years of experience in designing, building and operating large scalable systems, microservices and web-application. Proven ability to own architecture end-to-end, deliver multi-million-dollar business impact, review design and code, take architectural decision and drive reliability, scalability, and operational excellence in production systems. Strong background in system design, data-intensive applications, cloud based architecture and mentoring engineers.

WORK EXPERIENCE

Software Development Engineer II, Amazon 12/2021 to Current

- Led end-to-end system design and architecture of critical operational tool for Amazon B2B messages.
- Designed and implemented petabyte-scale data warehousing solutions for compliance purposes.
- Drove legacy system migration to reduce infrastructure costs by 50% while ensuring data correctness.
- Standardized monitoring and incident management, reducing production issue resolution time by 60%

Software Development Engineer I, Amazon 07/2019 to 12/2021

- Achieved \$17M savings by implementing a response delta algorithm and feedback interface
- Automated detection of missing items in return packages, preventing ~\$6M annual loss.
- Worked across teams to unify grading platforms, resulting in \$3M annual savings
- Migrated of 15M+ DB records seamlessly to separate table with zero system downtime

Software Development Intern, Amazon 05/2018 to 07/2018

- Developed session clearance tool for external warehouse associates in Return Grading tool.
- Automated warehouse onboarding workflows, reducing warehouse launch time by 90%.

SKILLS

- **Programming Languages & Frameworks:** C/C++, Java, Python, JavaScript, React, HTML, CSS, Spring, AngularJS
- **Developer Tools & Technologies:** Docker, Git, SQL, REST APIs, Micro-services, CI/CD
- **Cloud Technologies & Databases:** Object Storage, NoSQL and SQL Databases, Search Engines, Serverless Computing, Containers, Message Streaming, Caching Systems
- **Computer Science Fundamentals:** Data Structures & Algorithms, Operating Systems, Distributed Systems, Object Oriented Programming, Computer Networks, System Design

ACHIEVEMENTS

- Published a paper on text/non-text separation from handwritten document images, achieving 91% accuracy
- Selected among the top 35 students nationwide in the Indian National Mathematical Olympiad (INMO) 2014
- KVPY SX scholar 2014

EDUCATION

Bachelor of Engineering: Computer Science & Engineering 07/2019
Jadavpur University - Kolkata, India

Secondary and Higher Secondary
Burdwan Municipal High School
